

BOWLR LAUNCH

An update from your Board

Bowlr launch

Mon 29 April

As you will have read in our previous Board Updates we are now embarking on a series of activities to increase our membership. Ultimately targeting to reach a level of at least 650 by 2023.

A key step in this Project is the Club's investment in new software, including a revamp of our website. The software system Bowlr has been selected and is now being set up within the Club.

The System is already being used to maintain the Club's membership data and will be adopted in full for the start of the 2019 summer season.

From April 29 we will then be able to permanently replace the Club's paper based rink diary and league management systems with Bowlr.

“Bowlr offers integrated website provision with membership data, rink, league and Club competitions management”
