

BOARD UPDATE

A new series of quarterly updates from your Board

Roll Up Roll Up

It has been requested that we relax the dress code for members participating in informal roll ups. The idea is that this would potentially allow more of an informal 'pop in and play' approach, particularly for new members.

Let us know your views!

TV

We have been asked to consider installing a larger TV in the dining area. Big enough to be better viewed from the bar area and also more useful as a medium for external parties hiring the dining area for meetings. The existing tv will be relocated.

This is being explored.

Who's Who

To help new (and not so new!) members better navigate their way around the Club we will be putting up a photo-board of both Directors and Officers from all Committees over the summer.

Welcome!

Welcome to this new series of quarterly updates from your Board.

A regular communication that will update members on some of the Board's current activities.

Search for Club Manager

We are pleased to share that a number of applications have now been received for this new post and we will share further information on this as soon as we can.

Catering

As you will likely be aware, our existing caterers leave us shortly and we are in advanced discussions with potential new caterers. Once the new franchisees have been appointed we will of course seek to secure as smooth a handover as practical. It is however quite possible that we will have a small period of time without caterers. In that case, we will of course ensure that summer match meals are provided for.

Club Website

Our website is about to go through some major changes...

- Behind the scenes we will be changing our domain "hosts"
- Over the summer we will be giving the site a full revamp
- We will be making the site generally more tablet / mobile friendly
- We will improve the integration and usage of social media

Do let us know if there is anything you would like to see on the website that is not already there.

In the meantime we will try to minimise disruption whilst the above improvements are undertaken.

What Else?

Is there anything you would like to raise with your Board?

Do you have questions you would like answered?

Or topics you believe should be addressed?

If so we would like to hear from you!

In the meantime we hope you found this communication of interest and do let us know if you feel there are other topics to regularly include here.

Renewals

We are already starting to plan for the next membership renewals, a very busy period for our Office. 2018 will be the last year we complete this process with our existing software (which is no longer actively supported by the vendors).

This is the same software that supports our internal league management.

Matthew is leading the process to find us new software and in the meantime we will do everything we can to make this year's renewal process as smooth as possible for everyone!

Consuming own food on Club Premises

Whilst on the subject of catering, members are reminded that under the terms of our franchise it is not permitted to consume food whilst on Club premises unless purchased from within the Club (specific dietary requirements excepted).

It is essential that the Club abide by our side of the catering franchise agreement and we do thus kindly ask that all members respect this position.

Club Policies

Behind the scenes we will be undertaking a full review of Club Policies over the summer. These policies include aspects relating to topics such as health & safety, supplier governance, club access, data protection, sponsorship, usage of the Club by external parties, etc.

Once completed these policies will be freely available for anyone interested to view. Any proposed changes of significance will be communicated through these Newsletters or via the next AGM.

Club Financials

Watch this space for a regular summary of the Club's finances which will be communicated within future Quarterly Updates
